

FOLIO

General Faculties Council

'Twas hardly the stuff that limericks are made of; nonetheless, the 31 January meeting of GFC raised and dealt with a number of important issues. After fielding questions concerning the aftermath of the recent Hillel forum, Dr. Horowitz welcomed four new members to GFC. Joining the ranks of academic members of Council were R. Hett, Professor of History, and B. Wilkinson, Professor of Economics. Katie Jones, a graduate student in Comparative Literature, and Nancy Smith, a second-year Arts student, were added to the student representation on Council.

A number of reports were then placed before GFC. Steve Hunka presented an update of Board of Governors activities; Ross Macnab set before Council the most recent information about Universiade '83 (questions about the reported funding deficit brought assurances from both Dr. Macnab and President Horowitz that contingency plans are in place); E. Reinhold, Chairman of the Committee on Admissions and Transfer, and Mary Totman, Executive Officer of the Senate, answered questions regarding the 1982-83 Report of the Senate Lay Observers of the Admissions Process in Quota Faculties; and the Annual Report of the Council on Student Services (COSS) was also received.

Considerable time was then given to a report from the Academic Development Committee (ADC) concerning testing and remediation. Acting on a request from the Executive Committee of GFC, a committee of ADC has spent some months developing a general policy on the University's involvement in

Studio Theatre's presentation of "Twelfth Night" with Sean Mallen (left) as Orsino and Marilyn Wallis as Olivia continues through 12 February at Corbett Hall. Photo by Bill Ingles.

testing and remediation. Specifically, ADC was asked to consider the following: "the principles involved in remediation, the reasons for the University's involvement in the testing and remediation program, an evaluation of existing remediation efforts, the financial aspects of this area, whether or not remediation is cost-efficient, and whether or not there should be a fee for service."

In presenting the report, George Baldwin, Vice-President (Academic) explained that the focus of the initial report was writing competency, stating that there is "widespread conviction that we can no longer tolerate writing incompetence in our graduates, whatever their field of study. This report is the result of enormous effort," he continued, "an

effort that was not without heated debate and heartfelt reservations." So saying, he introduced two major recommendations for Council's consideration: (1) that writing competence be a requirement for admission in 1987 (and thereafter) and (2) that during the interim it be made a condition of re-enrolment in 1985 and 1986 (preceded by compulsory testing and remediation beginning this fall). "We offer this report in the spirit of hope," stated Dr. Baldwin. "It is an affirmation of our conviction that this matter must be taken very seriously."

Jim Russell, Professor of Surgery, raised some important questions during the ensuing discussion. "I can see some problems in the offing,"

he stated, referring to both the method of testing and the importance of an appeals procedure. President Horowitz concurred with the concerns expressed by Dr. Russell, adding to those his own with regards to the existing TOEFL (Test of English as a Foreign Language) exam.

A number of other questions were raised (costs, recovery of costs, procedures, duplication of exam requirements, implications for future testing and remediation policies regarding mathematics, etc.) and Dr. Baldwin was frank in his admission that "scores of questions will have to be answered" before the new testing and remediation policy can be implemented.

Kudos went to Lorna MacCallum,

Chairman of the long-standing President's Committee on Teaching and Remediation, for her support and advice, and the resulting vote (seventy-one to four) made it clear that GFC recognized the seriousness of a situation which, according to Dr. Baldwin, "is no longer acceptable to the University community."

From there, the meeting moved quickly to its conclusion, receiving Annual Reports from the Facilities Development Committee (FDC),

the Academic Development Committee (ADC), and the Planning and Priorities Committee (PPC), as well as a *pro forma* proposal concerning amendments to three Board-AASUA agreements (Librarians, Administrative and Professional Officers, and Faculty Service Officers).

The next meeting of General Faculties Council is scheduled for 28 February. □

professorship will result in the publishing of an annotated bibliography, papers on new or refined techniques for exploration of data in educational research, a monograph on exploratory data analysis and educational research, seminars for staff and students and ("if time permits") a beginning attempt at a CAI program on exploratory data analysis.

Harvey Zingle, Chairman of Educational Psychology, is strongly supportive of Dr. Maguire's research proposal. "Exploratory data analysis provides for an easier and frequently clearer understanding of research data, particularly with students who enter our graduate programs with limited mathematics," he suggests. "Dr. Maguire is eminently capable of bringing together directions of exploratory data analysis with educational research needs."

Thrice a graduate of this University (BSc 1959; BEd 1961; MEd 1964), Dr. Maguire obtained his PhD from the University of Illinois. Save for a year as Professor and Chairman of the Division of Psychological Foundations in Education at the University of Victoria (1975-76), he has been a member of the Department of Educational Psychology at this University since completing his doctorate in 1967. He is currently a Professor of Educational Psychology in the Division of Educational Research Services.

Michael Rodda, also a Professor in the Department of Educational Psychology, specializes in deafness. That choice, he says, "was made in mid-adolescence—I read the autobiography of Helen Keller and was so impressed and enthusiastic that I decided I wanted to work with deaf children." That youthful enthusiasm led Dr. Rodda to the University of Durham where he majored in psychology (BSc 1959; PhD 1964). After teaching in New Zealand for three years, he returned to work in Manchester. It was there that Dr. Rodda first developed his three main research themes, themes that he has followed ever since. They are: language and communication, mental health needs, and educational/social policy studies.

"Deafness," states Dr. Rodda "is an invisible handicap whose

consequences are not apparent to the casual observer." The McCalla Professorship will enable Dr. Rodda to "give more time to deafness research, particularly as it relates to the mental health needs of deaf students and the study of language and communications skills." During the tenure of his McCalla Professorship, Dr. Rodda intends to use data collected during the Alberta Survey of the Hearing Impaired to undertake a definite study of the mental health needs of deaf students; finish writing up and explore publication of the Test of Communication Skills, an innovative test that he developed in cooperation with two of his colleagues; continue the studies on language and communication begun under NSERC and SSHRCC grants; and write up existing and new data for publication, including preparing the first drafts of books on psycholinguistics and deafness and counselling deaf students and their families.

Turning once more to Harvey Zingle, Chairman of Educational Psychology, "the significance of the proposed research activity is obvious—both at the level of providing us with some useful data and guidelines for setting up programs in Alberta, and at the more general level of contribution to our knowledge through publication of scholarly articles and books."

Dr. Rodda came to The University of Alberta in 1980 after a three-year term as Professor and Head of the Department of Psychology at Mount Allison University. Currently the Director for the Alberta Survey of the Hearing Impaired, Dr. Rodda is a consultant with the Alberta School for the Deaf and Joint Editor of the *Journal of Canadian Educators of the Hearing Impaired*.

Since their inception in late 1980, more than thirty of the prestigious McCalla Research Professorships (named for Arthur G. McCalla, first Dean of Graduate Studies and Research) have been awarded in a wide range of University disciplines. Funding for the Professorships comes from the Endowment Fund for the Future. □

Educational Psychology Hits McCalla Jackpot

Two professors in the Department of Educational Psychology are the latest to join the ranks of McCalla Professors. Under the terms of the prestigious award, Thomas O. Maguire and Michael Rodda will be freed from their normal teaching and administrative duties during the 1983-84 academic year in order that they may apply themselves "with uninterrupted concentration" to research activities.

Dr. Maguire's professorship will

see him delve into "Exploratory Data Analysis," an approach to data analysis that encourages the researcher to examine data in terms of both its variation and its commonality. Further developing his past work, Dr. Maguire will examine the role of exploratory data analysis in educational research. This will involve collecting, reviewing, evaluating, developing, and applying techniques of statistical analysis. According to Dr. Maguire "there has been, in educational research, a pronounced tendency to move quickly to data summarization... with the consequence that most educational research is the study of the hypothetical 'average' person and need not represent anyone very well." Through exploratory data analysis, he explains, techniques have been developed that can assist researchers in portraying their data so that both trend and exception can be examined.

Dr. Maguire's project aims at discovery, but even should it need to be confined to refinement and translation, he feels that it will be of practical importance. "Already researchers in other social sciences are finding that the removal of the strictures of the hypothesis testing paradigm is allowing them to ask different questions and to find interesting answers. At the very least, compiling, adapting, and explaining exploratory techniques should lead to similar emancipation in education," he predicts.

Dr. Maguire anticipates that his

Printing and Computing Services: A Double Act at SSHRCC Seminar

At one of a series of regional meetings related to scholarly publishing sponsored by the Social Sciences and Humanities Research Council of Canada (SSHRCC), held at the Terrace Inn on 27 and 28 January, our University's Departments of Printing and Computing Services wowed participants with a demonstration—spoken and practical—of what can be done these days with computers. Len Young (Director of Printing Services), Bernie Cordell (Printing's Production Office Manager), Grant Crawford and Ron Senda (Senior Analysts

in Computing Services), Terry Butler (Computing Service's Information Coordinator), and Laura Hargrave (an editor for the *Canadian Journal of Sociology*) joined forces to present to University librarians, publishers, and writers from across the country a "state of the art" demonstration of technology in scholarly publishing.

The two-day meeting got off to a fast start with Mr. Young giving auditors an overview of the history of printing and publishing. Soon, he went on to explain what might be possible five years hence, when the publishing trade will be inextricably

linked to sophisticated data processing techniques.

Following Mr. Young were Messrs. Crawford and Cordell, who addressed problems associated with the use and misuse of computers. Last in the morning of 27 January were Mr. Senda and Mr. Butler who, in turn, considered ways of gaining access to information and what the various means are for "capturing keystrokes" (optical character readers, word processors, mainframe terminals, generic coding, etc.).

After lunch, the SSHRCC seminar took another track when the attention of the delegates was

turned to the "Editorial Process." Mr. Crawford, Mr. Young, and Mrs. Hargrave led participants through the intricacies of everything from telecommunications and data transmission to content and style, promotion, and production coordination. The evening of 27 January was taken up with a dinner at the Faculty Club and an address by Frank McGuire of the *New Canadian Encyclopedia*, a highly respected professional in the printing and publishing world.

The SSHRCC regional meeting continued all through the next day (28 January). Delegates, not all of them familiar with the nuts and bolts of publishing, were treated to such delicacies as the impact of new technology on the manipulation of text, typesizes and sizes, on paste-up, and on production control by Bernie Cordell. "Data base management systems" were explained to the SSHRCC delegates by Ron Senda.

The two-day seminar ended with a general discussion of the topics addressed during the meeting.

Now, the question: Why was the SSHRCC regional meeting held in Edmonton? Simply for the reason that our Departments of Printing and Computing Services are leaders in the new technology that is already changing the face of the printing and publishing worlds in North America.

(For the benefit of *Folio* readers, it may come as a surprise to learn that their small bulletin, produced with "hot metal" type less than a year ago, has been typeset for the last couple of months by means of the most up-to-date computer-based system currently available.

Beginning with the first issue of *Folio* in January, all copy (articles, coming events, advertisements and the like) has been entered along with commands specifying typesizes and sizes (according to a format prepared by Printing Services). This has been done by Community Relations staff on terminals hooked up to the Office of Administrative Systems mainframe IBM 3033. From OAS, *Folio* has been transferred on magnetic tape to the Printing Services Bedford

Charles Lynch to Lecture in Faculty of Extension

Charles Lynch has been a traveller since the age of two weeks. The nationally syndicated columnist for the Southam newspaper chain was born in Cambridge, Massachusetts, and, a fortnight later, was on his way to Canada in a bureau drawer. He was raised and educated in Saint John, New Brunswick, and began his newspaper career there in 1936.

He worked for newspapers and news agencies in Saint John, Halifax, Vancouver, Montreal, and Toronto before joining Reuters News Agency as a war correspondent late in 1943. In that capacity he covered the D-Day landings in Normandy on 6 June 1944, and the subsequent campaigns in northwest Europe to VE-Day. Mr. Lynch then served as Reuters correspondent in Berlin, and headed the team of Reuters correspondents covering the War Crimes Trials at Nuremberg.

He remained with Reuters until 1956, capably filling such positions as those of Chief Correspondent in South America, Chief Correspondent in Canada (1947 to 1950), and Editor in New York City. In 1956 he became United Nations correspondent for the CBC, and appeared on the national television network of the CBC from its inception, pioneering television

election coverage in 1957.

Mr. Lynch became Chief of the Ottawa Bureau of Southam News in 1958, and was appointed Chief of SN in 1960.

Mr. Lynch's travels will bring him to The University of Alberta where, on 19 February at 2 p.m. in Studio Theatre (Corbett Hall), he will deliver a 75th Anniversary Lecture sponsored by the Faculty of Extension. The topic is "How we became the most politically illiterate people in the world."

As seating is limited, pre-registration is necessary. Those wishing to attend the lecture and

informal reception should contact Nancy Misener, Faculty of Extension, at 432-3034 in order to pre-register and receive an invitation.

In his forty-five years as reporter, war correspondent, foreign correspondent, columnist and commentator on international and political affairs, Charles Lynch has managed to fit in some Mittyesque activities. He has appeared as a circus clown, guest harmonica soloist with various bands and symphony orchestras, and has danced twice with the National Ballet. He competed in the Great Centennial Balloon Race in 1967, and has won awards for bicycling, billiards, sailing, and fishing. Another claim to fame is that he is the Honorary President of the Rouen Butchers' Association.

In 1976 Mr. Lynch was elected President of the Parliamentary Press Gallery and awarded an honorary Doctor of Laws degree by Mount Allison University. In 1977 he was appointed an Officer of the Order of Canada, and in 1981 was named to the Canadian News Hall of Fame.

As Chief of Southam News, he writes a daily column of political, international, and social commentary for the Southam newspapers, and is a familiar figure on national radio and television. □

System via Computing Services. Thus, *Folio* is typeset with a minimum of human intervention, the bulk of the work being done by the writers

themselves. As we become more proficient there should be fewer and fewer typographical errors. Please bear with us.)□

Publications Production Seminar

Printing Services has planned a seminar for the campus community which will deal with the effective use of the University's facilities for publications production. The seminar will run from 8:45 a.m. to 12:30 p.m. on 17 and 18 February in 349 Central Academic Building.

There will be a demonstration of technology as applied to scholarly publishing.

Those who are interested in attending are asked to contact Dianne Goselin at 432-4246 no later than 15 February.□

Symposium on Science and Religion

The University of Alberta Chaplains' Association in collaboration with Walter Thorson of the Department of Chemistry will sponsor a symposium on science and religion. This 75th Anniversary event will take place from 14 to 18 February.

The major speaker for the symposium is the Very Reverend Professor Thomas F. Torrance, Professor of Theology at the University of Edinburgh from 1952 to 1979. He will present two public lectures as follows: "Faith and Physics," at 3:30 p.m. on 14 February, and "Transformation in the Frame of Knowledge," at 3:30 p.m. on 16 February. Both lectures will take place in Physics Lecture Hall, P126.

Professor Thorson will act as respondent at the first lecture and J. Gordin Kaplan, Vice-President (Research) will be the respondent at the second.

Professor Torrance will also give a talk entitled "The Nature of a University" at a Faculty Forum banquet on 17 February at 6 p.m. at the Faculty Club. Tickets for this event are priced at \$20 per person and, since a limited number of places is available, interested people are urged to contact the Chaplains' Association as soon as possible.

The first two lectures, says the Association, will bear on philosophical questions and issues relevant to both science and theology and will have a broad appeal, especially to scientists or those interested in the connections between science and broader human questions.

Professor Torrance has, in Professor Thorson's words, won particular recognition as one of a very few theologians who have given serious attention to the scientific tradition in its historical and epistemological relations to theological thinking. He has written widely on the relation of science to the medieval debates among rationalist, realist, and nominalist philosophers, and subsequently to revolutionary elements in Reformation theology, and he has explored many of the lessons for the philosophy of religion, for Christian theology—and for science itself—which such a study affords. He is the author of seven books and numerous essays on these and related topics.

Anyone wishing to talk with Professor Torrance during his visit to campus may arrange to do so by telephoning Professor Thorson at 432-3687 or David Bruce of the Chaplains' Association at 432-4620.□

You and Your Money

Personnel Services and Staff Relations will present a seminar on "Personal Financial Planning" on 24 February at 7 p.m. The seminar, offered by Prestholdt Management Ltd., will be held in 2-1 Mechanical Engineering Building. Spouses are encouraged to attend.

The ingredients of successful investment will be discussed as will a common sense approach to inflation; income protection combined with growth and capital gain, the dual approach; interest versus dividends; income-splitting

techniques for tax saving; and the development of an effective program for a maximum-free retirement income.

There will be concluding remarks on the elements of a financial plan, and the need and importance, options and cost of investing.

The registration deadline is 17 February. For registration forms and further information on the seminar, contact Robert Goldbeck at Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5384.□

people

Richard B. Alderman (Physical Education) was recently appointed the official Psychological Consultant to the Canadian Men's Volleyball team. His major responsibility is seen as helping the coaching staff prepare the team for the World University Games, the NORECA Olympic Zone Playdowns in Indianapolis, and the 1984 Olympics in Los Angeles.

A course on Process Control was presented to Manitoba Hydro Engineers by *Ken Bollinger* (Electrical Engineering) on 10, 11, and 12 January in Winnipeg. Practical aspects of power system control were emphasized to the thirty-eight participants with case studies drawn from Professor Bollinger's experience.

Robert Bryce (Educational Administration) served as the major consultant to the January 1983 program of the Institute of Educational Administration (Victoria, Australia). This was the second occasion he served as major consultant. He also gave two invited addresses in January: "Management of Educational

Resources" to the Victorian Association of School Librarians, Melbourne, Australia; and "Leadership Roles and Leadership Styles" to the Third New Zealand Educational Administrators Society Conference, Auckland, New Zealand.

The banners on display in HUB Mall are the work of Theatre Design student *Barbara Devonshire*. The colorful hangings are fifteen feet by three feet in applique nylon, and were commissioned jointly by HUB Mall and Universiade '83. They depict symbols appropriate to each country, together with those of the World Student Games. The designer is a fourth-year student in the BFA program, Department of Drama.

Alfred Fisher (Music) will be a guest of the Banff Centre this month. He has been invited on the occasion of the appearance of the American pianist, David Burge, who will perform Professor Fisher's "Six Fantasy Pieces." Written for Burge on commission from the CBC, it will be programmed throughout the United States on Burge's 1983 tour. The pianist, currently Chairman of the Piano Department at the Eastman School of Music, is internationally recognized as an outstanding interpreter of contemporary keyboard music.

Folio of 16 December 1982 noted that *Guy Goyer* (Geography) was

appointed a Research Fellow by the Alberta Research Council. Dr. Goyer is an employee of the Council, and was appointed a Research Fellow for his distinguished service. In addition to his full-time duties with the Alberta Research Council, he has taught courses at The University of Alberta since 1974. *Folio* apologizes for not emphasizing Dr. Goyer's relationship with the Council.

Gerald Redmond (Physical Education) recently presented a paper at the annual British History of Education Society Conference, held at Loughborough University of Technology, England, 17 to 19 December 1982. □

service information

All information to be included in this column must reach the Office of Community Relations by 9 a.m. the Thursday prior to publication.

Coming Events

Lectures and Seminars

Department of Music
10 February, 1:30 p.m. Wallace Berry, Chairman

of the Department of Music, University of B.C., will present a lecture on "The Eriica Introductions: Structure and Performance." 2-32 Fine Arts Centre.

Department of English

10 February, 3:30 p.m. E.L. Bishop, will present a seminar entitled "The Instinct to Create: The Method of Virginia Woolf's Essays." 5-20 Humanities Centre.

17 February, 3:30 p.m. C. Gordon-Craig, will present a seminar "Kipling and Freemasonry." 5-20 Humanities Centre.

Department of Art and Design

10 February, 7 p.m. Clay Ellis, Edmonton sculptor, will present and discuss his work. 2-20 Fine Arts Building.

Department of History

11 February, 3:05 p.m. Ivan Rudnitsky will present a colloquia on "Michal Czajkowski's Cossack Legion: An Episode in the Crimean War." 2-28 Tory Building.

Department of Zoology

11 February, 3:30 p.m. Ann L. Kyle, will speak on "Neural and endocrine control of spawning behavior in male goldfish." CW410 Biological Sciences Building

18 February, 3:30 p.m. Margo Pybus, will present a seminar on "A story of muscleworms (*Parelaphosstrongy* spp.) and deer (*Odocoileus* spp.)." CW410 Biological Sciences Building.

Department of Sociology

15 February, 3:30 p.m. John O'Neill, York University, will speak on "Bureaucracy and Discipline: Weber and Foucault." 2-11 Humanities Centre.

Alberta Heritage Foundation for Medical Research

15 February, 4 p.m. Arthur J. Olson, Research Institute of Scripps Clinic, La Jolla, California, will speak on "Application of Computer Graphics to the Study of Biological Macromolecules and Macromolecular Assemblies." Sponsored by the Department of Biochemistry. 2-31 Medical Sciences Building.

Faculty of Business

16 February, 2 p.m. I.A. Litvak, Faculty of Administrative Studies, York University, will present a seminar entitled, "Canadian Multinationals and Canada-U.S. Relations." 457 Central Academic Building.

Boreal Circle

15 February, 8 p.m. John England, will present a seminar on "Contrasting Northwestern Greenland and Northeastern Ellesmere Island." CW410 Biological Sciences Building.

Religious Studies

16 February, 4 p.m. M. Verdicchio, will speak on "The Metaphor of Epistemology in Vico's 'New Science'." L2 Humanities Centre.

Departments of Slavic and East European Studies, English and Comparative Literature

16 February, 4 p.m. Patrick Waddington, Victoria University, Wellington, New Zealand, will present a public lecture entitled "Browning and Russia." L4 Humanities Centre.

Salter Reading Series

17 February, 12:30 p.m. Robert Zend, poet from Toronto, will read from several of his works, including his new book of poetry, "Beyond Labels." 2-42 Humanities Centre.

Faculty of Arts

17 February, 8 p.m. L.C. Green will present a lecture, "Is There an International Criminal Law?" L3 Humanities Centre.

Canadian Institute of Ukrainian Studies

18 February, 7:30 p.m. Myroslav Yurkevich will speak on "Dmytro Dontsov: From Socialism to Nationalism." Heritage Lounge, Athabasca Hall.

Faculty of Extension

19 February, 2 p.m. Charles Lynch, nationally syndicated columnist for the Southam newspaper chain, will speak on "How we became the most politically illiterate people in the world." As seating is limited, pre-registration is necessary. Please phone Nancy Misener at 432-3034 to confirm your attendance.

Science Dining Club

22 February, 6 p.m. C.R. Stelck, Department of Geology, will speak on "The Sedimentary Basins of Western Canada." For reservations, phone Donna Arbutnot at 432-5072. Guests are welcome.

Music

Department of Music

10 February, 8 p.m. A faculty recital featuring Elsie Achuff, soprano; with Ernest Dalwood, clarinet; and Jane O'Dea, piano.

11 February, 5 p.m. A junior student recital featuring Margaret Daly on the flute. Convocation Hall, Old Arts Building.

11 February, 8 p.m. A duo-piano recital with Robert Stangeland and Milton Schlosser. Convocation Hall.

12 February, 5 p.m. A junior student recital with Chris Carlson on the trombone. Convocation Hall.

12 February, 8 p.m. Opera Scenes from *Faust* by Gounod, *Fidelio* by Beethoven, *The Elixir of Love* by Donizetti, and *Otello* by Verdi. Convocation Hall.

13 February, 3 p.m. Edmonton Youth Orchestra with Michael Massey, conductor. Convocation Hall.

14 February, 8 p.m. St. Cecilia Orchestra with Malcolm Forsyth, conductor. Convocation Hall.

16 February, 8 p.m. Brahms Festival: *A German Requiem* performed by the Richard Eaton Singers, Edmonton Symphony Orchestra, with soloists Diane Nelsen and Harold Wiens, conducted by Leonard Ratzlaff. Jubilee Auditorium.

17 February, 8 p.m. A senior student recital featuring John Feldberg on the bassoon. Convocation Hall.

18 February, 5 p.m. A junior student recital with Neal Evans on the double-bass. Convocation Hall.

18 February, 8 p.m. A senior student recital with Gery Kruschke, tenor. Convocation Hall.

19 February, 5 p.m. A non-compulsory student recital with Ross Hill on the trumpet. Convocation Hall.

Exhibitions

11 to 27 February. "Laura Evans Reid - 1883-1951." Ring House Gallery.

11 to 27 February. "The Celebrating Drum." Ring House Gallery.

Until 15 March. Unheard Music: 20th Century Poetry in Rare and Illustrated Editions. The Bruce Peel Special Collections Room, B-37 Cameron Library.

75th Anniversary Events

Until 28 February. Faculty publications by members of the Department of Sociology are now on display across from the circulation desk in Rutherford Library North, as part of the Library's commemoration of the University's 75th anniversary.

The Brahms Library Display. To coincide with the 150th anniversary of the birth of Johannes Brahms, materials relating to the works and life of the composer. Rutherford Library Galleria.

Until 12 February, 8 p.m. "Twelfth Night." Studio Theatre, Corbett Hall.

11 to 12 February. "The Class of '69": Margaret Atwood, Dorothy Livesay, Stephen Scobie, Wilfred Watson, Elizabeth Brewster. For further information, call 432-5086.

14 to 16 February. Symposium on Religion and Science. Lectures on Relationship and Compatibility of Science and Theology by Thomas F. Torrance, formerly of University of Edinburgh, world renowned author and lecturer. For further information, call 432-2325.

Films

Chaplains' Association

10 February. "The Long Search: Quest for Faith" film series features "There is No God But God" at 12:30 p.m. in the Newman Centre; 7:30 p.m. in 158 SUB. Sponsored by the Chaplains.

17 February. "The Long Search: Quest for Faith" film series features "The Chosen People" at 12:30 p.m. in the Newman Centre; 7:30 p.m. in 158 SUB.

Department of Romance Languages

Wednesdays, 3 p.m. The Italian Area of the Department of Romance Languages presents a series of films in Italian with English subtitles. For information, contact M. Verdicchio at 432-2003. 17 Arts Building.

Department of Germanic Languages

23 February, 7:30 p.m. "Trotta." (1977). 17 Arts Building.

Radio and Television

Radio

Programs broadcast on CKUA radio 580 AM and 94.9 FM.

11 February, 8 p.m. Voiceprint—"Linguistic Taboos and Literary Censorship." Guests: I. Kalmar, J. Loller, S. Rees.

12 February, 7 p.m. University Concert Hall—Concerts, recitals, and interviews with Faculty and special guests of the Department of Music.

16 February, 7 p.m. Behind the Curtain—"Sitting Bull's Canadian Saga" Part 1 written by Laurier Gareau.

16 February, 7:30 p.m. Extensions—Nancy Misener speaks about The Faculty of Extension Open House.

16 February, 7:45 p.m. Perspectives—Issues underlying current events examined in lively debate format.

18 February, 8 p.m. Voiceprint - "Frontier Thinkers: Chomsky, McLuhan and Frye." Guests: J. Chambers, E. McLuhan, N. Frye.

Television

Programs broadcast on Q-9 and C-13.

14 February, 9 p.m. Islam in Focus.

16 February, 9 p.m. Faculty Profiles—Faculty of Dentistry—"All About Teeth."

17 February, 9 p.m. Poisoning, Prevention at Home—"The analysis and prevention of hazardous household products."

Sports

11 February, 7:30 p.m. Golden Bear Hockey squad vs. Calgary Dinosaurs. Varsity Arena.

11 February, 5:30 p.m. Golden Bear and Panda Swimming teams vs. Edmonton Keyano and Edmonton Olympian Swim Clubs. West Pool.

11 February, 7 p.m. Golden Bear Wrestling vs. Calgary Dinosaurs. West Gym.

12 February. Golden Bear and Panda Gymnastics host the 1983 Klondike Challenge. Varsity Gym.

12 February, 3:30 p.m. Golden Bear Hockey vs. Calgary Dinosaurs. Varsity Arena.

12 February, 10 a.m. Golden Bear and Panda teams host the 4th Annual Golden Bear Sprint Invitational Swim Meet. West Pool.

12 February, 10 a.m. University of Alberta Invitation Wrestling Meet. West Gym.

18 February, 6:45 p.m. Panda Basketball vs. Saskatchewan Huskies. Varsity Gym.

18 February, 8:30 p.m. Golden Bear Basketball vs. Saskatchewan Huskies. Varsity Gym.

19 to 20 February. 1983 Canada West University Athletic Association Gymnastics Championships (A Pre-Universiade '83 Event).

Matters of Faith

Lutheran Campus Ministry Worship each Sunday at 10:30 a.m. in the Newman Centre, the west basement of St. Joseph's College. All are welcome.

SUB Theatre

Films

11 February, 8 p.m. "Montenegro."

Music

Notices

Campus Reviews

PACCR wishes to correct a previous announcement. As part of the process of carrying out systematic reviews under the guidance of the President's Advisory Committee on Campus Reviews, the Faculty of Home Economics is completing the self-study phase of the review process. The other major phase of the process is the site visit and assessment by the Unit Review Committee. In preparation for this second phase, PACCR invites written comment prior to 28 February.

Submissions are for the use of the Unit Review Committee and will be held in confidence by the members of that committee. Submissions should be sent to: Mrs. L. Pearson, PACCR Office, W4-13 Chemistry Building. Attention: The Home Economics Unit Review Committee.
